Subject: UK Physio Advertising Proposal

Hi John,

Thank you very much for your time on the phone this morning.

UK Physio is a physiotherapy clinic based within the Cambridge Belfry hotel.

We would like to promote our physiotherapy services using different forms of local advertising and sponsorship and we are contacting you in relation to displaying an advertising banner in agreed locations within Cambourne, as discussed earlier today.

To gain maximum coverage and interest in our services we propose not leaving an advertising banner in one location longer than a 3 week period, where it will then be moved to a new agreed location. We propose this on an ongoing, rotational basis.

If this proposal is acceptable, please provide further information on how to proceed.

We look forward to your response.

Kind regards,

Jon Lamming
