Subject

Should Cambourne become a town

Message

Dear Sir/ Madam

I am writing to suggest Cambourne should apply to be officially designated a town. There is quite a lot of development currently taking place in South Cambs, which means increased competition for resources and status. I believe officially becoming a town, (the first new town of South Cambs?) would enhance the profile of our community.

I am willing to start a petition to gather community support for this initiative but it would great to have the Parish Council's support as well.

I look forward to hearing from you.

Serge
