16.1 Views sought on County Council business planning

Cambridgeshire County Council is gathering views about local communities, council services and proposed changes to council tax. The views of parish councils and parish councillors matter. Sharing your views will help us better understand what is important to your community and what we should take into consideration when setting council tax rates.

To support this initiative, please respond to the County Council's online survey, which will be available until the end of January 2019.

Why are we asking for your views?

As the fastest growing county in the UK, demand for council services is growing and we are having to continually adapt what we do.

More people need improved roads and public transport services, new schools (or increased places in them), opportunities for lifelong learning; increasing amounts of waste needs to be dealt with, more need to register births or deaths or get married; more children need help to stay safe or live fulfilling lives, and as people age they need support to remain independent and have the support they need.

As a Council, we continually look to transform what we do and be innovative to meet this growing demand. We also want to support places in most need and improve people's lives; making sure people get the services they need as close to home as possible. What we do know is that government funding for councils is reducing and Cambridgeshire doesn't get a fair funding deal from Government - this is the message we are giving the county's MPs so they can take our concerns to Government through our FairDeal4Cambridgeshire campaign.

3. Budget Planning

In order to respond to increasing demand within the Council's limited resources we are considering the following business plan proposals for 2019. We want to understand how far the following proposals are supported.

The next set of questions focuses on the most significant changes being considered by the County Council.

4. How strongly do you support the following approaches to either save money or increase income? So on a scale of 1 to 4, where 1 is 'fully support' and 4 is 'strongly object' how strongly do you support...?

	1 - Fully support	2 - Support	3 - Object	4- Strongly object	Don't know
1 - Increasing the number of Cambridgeshire foster carers to improve the lives of children in care	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2 - Focus on stable placements for children in care, so that they can build longer term relationships and the cost of change is reduced	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3 - Supporting people with learning disabilities to move from fully residential care to independent supported living	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4 - Moving people with learning disabilities closer to home, which is usually better for the person and provides opportunities for savings	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
5 - Continue to explore ways of merging and sharing services with partners, particularly Peterborough City Council, to improve services and deliver efficiencies	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
6 - Be more commercial in areas where the Council can generate income (e.g. trading advertising, sponsorship) which can then be used to reinvest into supporting our public services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
7 - Continue to invest to generate income which will support the delivery of public services (e.g. renewable energy schemes and commercial properties which return an income stream)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
