General Questions

1) straight forward.

2) Daily

Further Comment

The proposed transport link must provide suitable points within acceptable walking distances to ensure take up and travel quickly to the desired destinations. The charges should be set as to encourage use rather than deterring passengers. The route should be as direct as possible.

Option specific questions

3) Option 1 Off-road

Further Comment.

Off-Road option required for entire route except where not possible through Cambourne. Route at Bourn Airfield should be through the new settlement and not around the northern boundary, to provide stops within walking distance.

4) Route A with its connection into Cambourne from the Broadway is essential to ensure it encourages the greatest uptake of passengers to ensure. Route B is indirect and will not address the needs of residents with a majority forced to use cars rather than public transport.

5) very important

Park and ride facilities

6) No preference

7) no comment

Your thoughts

8) Punctual service, Low cost to encourage use rather than cars. Good bus stops with secure cycle parking.
