

CAMBOURNE PARISH COUNCIL

District of South Cambridgeshire

Council Meeting 5<sup>th</sup> March 2019

**17. TRAFFIC MATTERS & ROAD SAFETY.**

**20MPH SPEED LIMIT**

After discussion with the members of the Transport Working Party it was agreed to proceed with the speed counts to the 30mph roads to ascertain the average speed and the level of traffic calming required. The County Council has given a list of approved contractors and specific requirements for the counts so we can get quotations from them to enable the design to be progressed. The Working Party will then be in a position to make a recommendation to the Council

It is

**RECOMMENDED** receive the report, confirm the actions and to delegate the consideration of the quotes to the transport working party in consultation with the Parish Clerk to approve the appointment of the best value contractor.
