

## District Councillor G Clayton Report

I have a short bullet pointed report below and also the forwarded content to share with Town Cllrs.

Please find attached and below details of a presentation I attended at SCDC regarding Unauthorised Encampments and community relations with Gypsy, Roma and Traveller community members.

I would welcome an opportunity to meet and discuss the opportunity this raises for Cambourne to not only be the first Town in South Cambridgeshire, but the first to reach out in a positive manner to GRT community members with an offer of negotiated stopping policy here in Cambourne.

Please let me know who and when we might have that conversation after May 10 when I will have received the full toolkit as per the email suggested next steps below.

Other matters:

- I will be attending a briefing by SCDC planning dept regarding all things planned development incl North Cambourne, EWRail (station positioning!!)and Off Road Busway. This is to take place on April 23
- There will also be a briefing about plans for Cambourne Business Park on April 13.
- I attended a briefing by developers regarding potential North Cambourne development that could result in a further 6000 homes being built north of the A428. This being in the pipeline makes it even more important that the station is North of Cambourne. If not then impact on our own eco park and the rat run that would eventually develop with cars accessing the southern position make it vital we coordinate pressure on EWR to go north. I noticed on recent walk there is objection from Caxton to the southern route so perhaps we could join forces with CaxtonPC also if we haven't already.

I think that's about it for me for this report.

Kind Regards

Cllr Gavin Clayton
